Weekly Programme Reminder

To SeniorNet and U3A Members

This coming **Monday 4 November** Norris and Margaret present an interesting introduction to:

Artificial Intelligence

They will demonstrate how you can use **Artificial Intelligence** in an amazing number of situations including:

**Planning a Tour, Writing a critique of a play
Creating poems and speeches for special occasions and much more.**

All in a few seconds . . . quite remarkable!

This is a **must-see presentation** if you are interested in keeping up with new technologies. Technologies are developing fast and although you may not want to be involved, **it is good to know what is going on**.

_____-

We advertised a couple of weeks ago that **Marion Crawford and her team** were holding a session for **Photo Book Course participants** to present their completed photo books.

This session is coming up on **Thursday 7 November from 1.00pm to 3.00pm**.

This is an opportunity for **anyone** to come along and hear from **Photo Book aficionados** about what is involved to **create** a photo book. Chat to people who have some knowledge of the process and express your interest in coming along to the next **Photo Book Course** in 2025.

Refreshments will be on offer so come along and **listen to the presentations**.

_____

Venue: Arohanui Church, 81 Middle Road, Havelock North.

Date: Monday 4 November for Artificial Intelligence.

Time: 1.00pm for general tech questions and 1.45pm for the Artificial Intelligence presentation.

Date: Thursday 7 November for the completed Photo Book presentation.
